

Ready-For-Surgery™ Solutions

Ankle Fracture Solution Portfolio

The Conventus-Flower Orthopedics Ankle Fracture Solution Portfolio brings the advantages of the Ready-for-Surgery™ FlowerCube™ to a multitude of ankle fracture indications. The robust portfolio features a diverse range of sterile-packaged plates and screws, an innovative intramedullary nailing system, and knotless repair for syndesmotic injuries.

BUILDING A MORE EFFICIENT CASE

Conventus-Flower Orthopedics is the leader in Ready-For-Surgery™ bone fixation. The FlowerCube™ produces clinically equivalent outcomes while generating cost savings and surgical efficiencies when compared to traditional orthopedic implant and instrument sets.

- **Innovative System that is pre-packaged and ready for use**
- **Contains single-use, sterile packaged implants & instruments required for specific surgical indications**
- **Eliminates pre-op handling and post-op reprocessing**

FlowerCube™ Surgical Efficiency Study Results¹:

Faster Case Time

Time saving of nearly 20 minutes per case with the FlowerCube compared to procedures using traditional implants

3rd Party Reimbursement Savings

Over \$1,300 savings in third party reimbursement costs for procedures performed at an ASC compared to those done in an outpatient hospital setting

Joint Union

84.51% of study patients experienced union of the joints by 8 weeks post-surgery and 98.59% by 12 weeks post-surgery

Opportunity Savings

Sterilization, reprocessing and packaging of surgical trays would add \$45 per instrument tray

¹: Data on file at Flower Orthopedics

• IRB approved, prospective, multi-center clinical trial • Evaluating arthodesis of first MPJ • 71 patients at both hospital and ASC locations
• Primary Outcome Measure - Fusion rate 12 weeks post surgery • Secondary Outcome Measure - Cost & Time Efficiency
